

Go to <https://www.tenable.com/downloads/nessus?loginAttempted=true>

Select the download for your system 64 bit systems will use the one highlighted below, 32-bit Windows systems (search for “x32.msi”)

The screenshot shows the Tenable Downloads page for Nessus. The page has a sidebar on the left with navigation links: Nessus, Nessus Agents, Nessus Network Monitor, Tenable.sc, Integrations, Sensor Proxy, Log Correlation Engine, Tenable Core, Tenable.ot, Tenable.ad, Web Application Scanning, and Compliance & Audit Files. The main content area is titled 'Nessus' and includes a 'Jump to: Release' dropdown. Below this, there is a section for 'Nessus - 8.15.2' with a 'View Release Notes' link. A message states: 'Need an Activation Code? In order to complete your Nessus installation, you need an activation code if you don't have one already. Get Activation Code'. The download table lists the following options:

| Download Link | Operating System | Size | Release Date | Checksum |
